New 1502 Gateway Training

The FTA data, systems, and distributed applications are being migrated to SBA's Capital Access Financial System (CAFS). As a result of this migration, Colson's 1502-related applications (1502 Dashboard and Connection) will be retired and replaced by the new 1502 Gateway within CAFS.

In preparation for the change, the FTA will host a virtual training session on August 12th from 4-5pm ET. The webinar will cover access, submission, and reporting within the new 1502 Gateway application. To join the webinar, please use [this link](#). We encourage you to create a calendar appointment and save the link for ease of access at the time of the webinar.

If you are not available to join the virtual training session live, the [FTA Wiki](#) has up-to-date resources available at any time, including:
