Question	Answer
General 1502 Questions & Answers	
1. When do we get access to the FTA Portal?	<i>The FTA Portal will go live on Monday, 8/30. However, the different roles that will give you access to the Portal are available on CAFS now. Additional guidance can be found here.</i>
2. Should all CAFS users create a PIMS account, or should it only be the AO of each account?	<i>PIMS Update access should be restricted to a few in the organization in order to manage contact information. PIMS View access is read-only and can be requested by others as well.</i>
3. Does anything need to be setup in PIMS in order to be able to submit a 1502 report?	<i>1502 reporting is not dependent on PIMS but we encourage that you review your PIMS information and ensure that address and contact information are updated.</i>
4. When will the new module be available and show after access requests?	<i>The SBA is processing approvals. It might take several days given the volume.</i>
5. Is the 1502 Form changing?	<i>Please use the official SBA Form 1502 when reporting loan data. This is the current form being used at Colson. The 1502 Fee Calculator and 1112 Monthly report templates are available for access on FTA Wiki.</i>
6. Our institution uses MS Excel for 1502 submission of SBA 7a loans payments and fees by email. Is email still allowed?	<i>The excel 1502 file should be uploaded in the 1502 Gateway in CAFS.</i>
7. Does the "Lender" role allow me to gain access to 1502 Gateway?	<i>All lending institutions should apply for the Lender role in CAFS but you will need to request additional roles to access 1502 Gateway. Please see the instruction on how to request access here.</i>
8. If a lender is unable to load a 1502 file on due date 9/5/21 because of file error? Will lender be penalized?	<i>No penalty will be assessed. The system is dollars driven on secondary market loans (sold loans). If you submit the wire on due date, it is considered a timely payment.</i>

<p>9. Can the 1502 be submitted in text file format or will we need to put it into an excel format?</p>	<p><i>The most efficient and secure method to submit is to use the standard SBA Form 1502 (excel format) when uploading the file in 1502 Gateway within the CAFS.</i></p>
<p>10. What is being done for LSP's who need to establish numerous Banks?</p>	<p><i>LSPs can request access for up to 24 location IDs at a time using the Location ID input box associated with roles, similar to ETRAN-Servicing. You are also able to immediately revisit the page and request access to 24 more and repeat this process to get all your requests in without having to wait for approvals. The requests will then go to the approval queue. SBA is working on turning requests around as soon as possible.</i></p>
