Sortable Headings for Reporting Summary Loan Level Tables

On the Reporting Summary page, users can sort the loan level table column headers by ascending or descending order.

Resolved Issues

We continue to make improvements to the 1502 reporting experience. The following updates are included with this release version. Some of these issues only affected specific users or specific loan numbers.

Duplicate Message Displayed for Error Code 4009

When the user reported an Amount Disbursed more than the Total Disbursement Amount, Error Code 4009 was displayed twice. Now, the valid error code only displays once.
